

Valamis – Learning Experience Platform

# The Complete Learning Ecosystem

Business is changing faster than ever before, and the need for skill development is crucial for businesses to keep up with the pace of change. There is less time to learn, so learning needs to be productive, but also engaging. By combining the leading learning technology with user-centric design, data science, and integration capabilities, Valamis LXP is a complete learning ecosystem.

## What Can Valamis LXP Do for Your Organization?

### Stay competitive

Analyze skill levels, proactively upskill your workforce, and align your L&D initiatives with your business goals. Ensure learning is happening just-in-time and at the point of need.

### Provide quality content

Utilize the built-in Lesson Studio to create your own lessons, and integrate external course marketplaces such as LinkedIn Learning, OpenSesame, edX, Harvard Business Publishing, and more. Combine different types of learning contents from both internal and external sources into learning paths.

### Engage learners

Boost engagement with modern, intuitive design, and flexible learning paths. Add AI-based content curation, social learning features and certificates to contextualize and personalize learning content. Provide consistent online and offline learning experiences for mobile devices.

### Learning that is truly part of your ecosystem

Learning should be a part of your employees' everyday work, not a separate solution. Connect Valamis with your software systems.

## Great UX - everywhere

An engaging digital learning platform with a clean user interface across all digital channels. Valamis coalesces the most important components of learning experience into an intuitive user interface. Log in using a web browser and start learning, or go to the native mobile app to learn on-the-go and download learning materials offline.

## Channels

Finding personalized learning content is as easy as searching for a movie to watch on your favorite streaming service. Valamis LXP can recommend learning content that is relevant to your role, and help prevent skill gaps.

## Flexible learning paths

Valamis LXP enables comprehensive learning paths that can contain lessons, assignments, webinars, classroom training, and even external courses from course marketplaces.

## AI assistant & recommendations

Our AI-powered digital learning assistant can help you find relevant learning content. Curate content with Valamis' state of the art AI, which makes content relevant to each individual based on a variety of factors including their interests, role, experience, learning behaviors, and business initiatives.

## Content Authoring

Make your own content in Valamis' content authoring tool called, Lesson Studio by utilizing text, images, videos, and quizzes. Learners can create learning materials and share with their peers. You can also import ready-made materials into Valamis.

## Seamless integration

Integrate Valamis with your existing learning ecosystem to work in conjunction with your: HRIS, LMS, content libraries, and internal content databases. You can also integrate Valamis with Slack, ERPs, CRMs, YouTube, or almost any other internal or external system.

## Learning Analytics

Measure, analyze, predict and improve the effectiveness of your learning and development programs. Valamis LXP applies AI-powered technologies to connect learning activities and employee performance. It utilizes xAPI and has a built-in Learning Record Store (LRS).

## Intelligent Knowledge Discovery

Using advanced methods like machine learning and natural language processing (NLP), Intelligent Knowledge Discover (IKD) enables you to analyze videos to find the exact moment in the video where the most relevant information to your query exists.

## The Future of Work

Valamis is a digital learning company specialized in workforce development. We believe that learning combined with innovative technology is the key to helping organizations prepare for the future of work.

Our solution is Valamis - Learning Experience Platform, an easy-to-use and flexible tool with advanced content curation and integration technologies under the hood. Enable learning whenever and wherever your employees need it and track the impact learning has on your business.

## How We Work

Valamis' roots are in Finland, the education capital of the world. We combine educational and technological expertise to deliver our customers the best learning experiences in the world.

We are committed to delivering you a future-proof solution. Our agile roadmap is based on these 3 strategies: our development work is user-centric, our management tools need to support achieving results, and our technology is featuring the latest in the enterprise learning landscape.

We deliver a solution that can be fully designed and customized to engage your people—it has your name, your logo and follows your brand guidelines. We have over 200 experts in learning, data science, design, corporate performance, and technology. Our cross-functional team is ready to work with you to make sure we succeed together.
